Precautions

- If a card number is registered from a shared phone, such as in a hotel, dormitory, or company, other people could possibly use your card without permission. NTT Communications is not responsible for any loss arising in such a situation.
- The card number registration and skipping function can be used only for calls originating from Japan.
(This service cannot be used outside Japan.)
- The card number registration and skipping function cannot be used from public telephones.
- The time needed to register, delete, or confirm a card number does not reduce the amount remaining on the prepaid card.
- Up to three telephone numbers can be registered for one card number.
- More than one brand of card can be registered for one phone number.
- More than two cards of the same brand cannot be registered for one phone number.
(Registering more than one of the same type of card will result in the new card number overwriting the older card numbers.)
- Expired cards and cards with a remaining balance of ¥0 cannot be registered.
